

## Notice of Road Works

**Grind & Pave  
(5500 Blk of Munn Road)**

**Patchwork  
(Various locations on Munn Road, Stag Road,  
Millstream Lake Road, Millstream Road and  
Woodridge Place)**

September 11, 2020

Dear Residents:

The District of Highlands will be undertaking grind and pave work in the 5500 block of Munn Road. In addition, pavement patchwork will be taking place in various locations as noted above.

At this time work is scheduled to take place over the next few weeks, however, this is dependent on weather and other scheduling factors that may delay the work up to the middle of October. In advance of the paving work, notification signs will be placed in the various locations to advise all motorists of the dates.

Please be aware of temporary speed restrictions due to pavement removals in the area of the road work, and expect traffic delays while the work is underway. Single lane traffic will be maintained during construction. Your patience in this regard is appreciated.

Residents with any questions or concerns are encouraged to contact the District Office at 250-474-1773.

Lorraine Hilton  
Chief Administrative Officer
